DIVAKAR PATEL

B.TECH CSE STUDENT | SOFTWARE DEVELOPMENT INTERN

divakar.dev.fullstack@gmail.com | Portfolio | GitHub | LinkedIn | LeetCode

PROFESSIONAL SUMMARY

Computer Science and Engineering student pursuing a B.Tech, with a 9.1/10 CGPA in the latest semester. Builds full-stack web applications and is interested in software engineering internships focused on frontend and full-stack development. Portfolio, code, and problem-solving profile linked below.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, shadcn/ui, Redux Toolkit

Backend & databases: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Prisma

Tools & platforms: Git, GitHub, Clerk, Vercel

PROJECTS

Tree-Bio — Link-in-bio web application | Next.js, Clerk, Prisma

- Developed a Linktree-style profile experience for consolidating social links, portfolio links, and contact details in one shareable page.
- Worked with authentication and database-backed profile data; live portfolio and source code are available through the links above.

Blood Bank — Sample booking application | React, Redux Toolkit, Express.js, MongoDB

- Built user flows for browsing blood-bank/store details, checking sample availability and pricing, and requesting bookings.
- Used Redux-based state management and API requests to load store information and a user's bookings.

CodeX — Coding platform | React, Node.js, MongoDB, Redis, Monaco Editor, Judge0

- Project concept includes an in-browser code editor and coding workflows alongside learning and administrative features.

EDUCATION

B.Tech — Computer Science and Engineering | Expected graduation: 2028

Latest-semester CGPA: 9.1/10

PROBLEM SOLVING

- LeetCode profile: https://leetcode.com/u/Divakar6368/
- Focus on strengthening data structures and algorithms through consistent problem-solving practice.

INTERNSHIP TARGET

Seeking remote software development internships, especially frontend, React/Next.js, and full-stack roles.
